Mmathuso Kgalane

Salesforce Developer | Software Developer Student at WeThinkCode_| Web-Developer

City of Johannesburg, Gauteng, South Africa

Summary

I am currently pursuing a full-stack qualification at WeThinkCode_. As a result-orientated and motivated individual, determined to achieve my goals, very patient and attentive. I have a background in Information Technology, I've facilitated hackathons at Girlcode and ranked 2nd place in numerous hackathons.

I believe that everyone deserves a chance to proving their abilities and show that it can be achieved. I live by its always impossible until you try it, even the word says I am possible. I don't say I'm perfect but I say try me, you will never know what surprises I hold. I can learn any language as long as I put my mind to it.

My spare time I would normally spend it at a hackathon or conferences. I fell inlove with travelling so now its my go to relaxation, I also wanna do cooking for fun now.

Experience

FNB South Africa

Salesforce Developer

February 2023 - Present (4 months)
